EXPERIENCE

- Diskovalist** Remote
June 2025 – September 2025
- *IT Intern*
 - Developed full-stack features using Next.js, TypeScript, and Supabase, building reusable APIs and structured schemas to streamline frontend-backend integration.
 - Implemented robust schema validation with Zod and custom React hooks, improving code reusability, type safety, and maintainability across the project.
 - Automated data extraction workflows by parsing PDFs with regex and storing structured records in Supabase, enhancing efficiency of data management processes.
- Beyond Career** Remote
February 2025 – March 2025
- *SDE Intern*
 - Implemented Google Sign-In authentication on login and registration pages, enhancing user onboarding experience and security.
 - Organized the codebase using the MVC (Model-View-Controller) pattern, ensuring better scalability and maintainability.
 - Designed and developed RESTful APIs using Node.js and Express.js, enabling seamless communication between frontend interfaces and backend services.

PROJECTS

- ChatSphere** January 2025
- *HTML, CSS, JavaScript, Node.js, Express, MongoDB*
 - **Emphasis:** ChatSphere is a real-time chat app using Node.js, Express, and Socket.IO for instant messaging. It features JWT authentication, MongoDB storage, Cloudinary media sharing, and an MVC architecture for scalability.
 - **Features:**
 - * Real-Time Messaging – Powered by Socket.IO for instant communication.
 - * Room-based Chat – Users can join dedicated chat rooms.
 - * Express.js Backend – Built using MVC for clean, maintainable code.
- EcoCircle [Website]** October 2024
- *HTML, CSS, JavaScript, Node.js, Express, MongoDB*
 - **Emphasis:** EcoCircle is a full-stack sustainability assessment platform that encourages factories to adopt eco-friendly practices. It features document-proof verification, a point-based scoring system, NGO assistance, and a real-time leaderboard for promoting environmental compliance.
 - **Features:** Utilized technologies such as HTML, CSS, and JavaScript to create a responsive and user-friendly interface.
 - * Developed a full-stack sustainability platform enabling factories to upload and verify documents (PDFs, certificates) for eco-friendly practices, generating automated compliance scores and tax-benefit eligibility.
 - * Developed secure Node.js/Express APIs and MongoDB schemas for verification workflows, rewards, NGO support, and a real-time sustainability leaderboard.
 - * Designed a responsive EJS interface for easy proof submission, sustainability tracking, and NGO assistance.

TECHNICAL SKILLS

- **Languages:** C, C++, JavaScript, Python, TypeScript
- **Tools:** Git, GitHub Actions, Google Cloud, MongoDB, MySQL, AWS, Firebase, Supabase
- **Frameworks/Libraries:** Node.js, Express, React, Next.js

ACHIEVEMENTS

- Community Impact Award Winner at the Myanmar Flood Response Hackathon hosted on Devpost for the project "FarmFloodAid".
- Microsoft Certified: Azure Fundamentals (AZ-900) — Scored **928/1000** [[View Credential](#)]
- Postman Student Expert.
- Solved 100+ Data Structures and Algorithms problems on LeetCode and GeeksforGeeks.

EDUCATION

- **Chandigarh University** Mohali, Punjab
◦ *Bachelor of Engineering - Computer Science; CGPA: 8.77* September 2023 – Expected June 2027
- **Govt. Model Sr. Sec School, 37-B** Chandigarh
◦ *Secondary School Education (Science); Percentage: 76* July 2021 – May 2023
- **Stepping Stones Sr. Sec. School, 37-D** Chandigarh
◦ *High School Education; Percentage: 89.9* July 2007 – April 2021
